

Mawunyo Kwasi Kutor

Information Technology Professional | Software Engineer | Digital Transformation Specialist

Mawunyo Kwasi Kutor is an Information Technology professional, Software Engineer, and Digital Transformation Specialist with experience in software development, cybersecurity, cloud technologies, artificial intelligence, and data-driven solutions. He is passionate about leveraging technology to solve real-world problems, empower businesses, and drive sustainable innovation across Africa.

He has contributed to projects in software engineering, IT systems, digital transformation, and entrepreneurship, working with organizations in both the public and private sectors. His interests include building scalable technology solutions, supporting startups and MSMEs, and promoting digital inclusion.

At **Nestling2Innovate**, Mawunyo is here to mentor and advise participants throughout the program, with a special focus on grant and sponsorship initiatives. He is committed to helping innovators identify funding opportunities, strengthen their ideas, and connect with resources that support sustainable growth and impact.
